

Project Name: ONLINE SHOPPING APPLICATION

Technologies:

- HTML5
- CSS3
- JavaScript
- AJAX
- JQuery
- JQuery Templating

Description:

It is a web application intended for easy online shopping. It allows the users to search the products easily based on categories and add them to cart. The user can add to the cart or remove from the cart, any product at any time. Moreover, the user can maintain the variation of quantity of product selected from product to product. There are different images available for one product so that user can have a look at the different variations of product available. There is also an Admin module. The admin adds new users, adds new products and modifies the existing products' price.

Role:

- Worked at the front-end at both admin and user modules.
- Developed the pages from the mock-ups and worked for the interactions.

Screenshot of a web browser window showing a product detail page for a painting. The main image is a large landscape painting of deer in a forest. Below it are three smaller images: a bridge over water, a woman sitting by a fire, and a waterfall. A blue "Add To Cart" button is positioned below the main image. To the right, a box titled "MANUFACTURER DETAILS" contains manufacturer information: Name: Shruthi Hamsa, Seller ID: 7896, Contact: 9642128963. At the bottom left, there is a section titled "REVIEWS:" with several reviews from users like Girish, Swetha, Vagdevi, Ritesh, Das, and Rithivika, each accompanied by a star rating.
